# Body Language - Definition

**Body language** is a type of nonverbal communication in which physical behaviors, as opposed to words, are used to express or convey the information. Such behavior includes **facial expressions, body posture, gestures, eye movement, voice and the use of space.** - (Wikipedia, free encyclopedia)

Body language is very important in our daily work. Each of us represents TUI Cruises and the F&B Department whenever we are on duty.

We are responsible to act professional and friendly at all times.

On the next slides, you will learn the key points of proper body language.

# Service Body Language

## Facial Expressions

- Always smile sincerely to present a friendly outgoing and confident personality.
- Do no grin or laugh loudly
- Be calm and confident at all times.
- Do not show any signs of anger or disappointment.

# Service Body Language

## Gestures

- Be careful when serving the guests. Some of the gestures may be interpreted in a wrong way.
- When having a conversation with guests try to avoid gestures at all.
- When used, gestures should not be abusive or should not cause any misunderstanding.

# Service Body Language

## Use of space

- Remember about intimate zone of 40cm when talking to guests
- Never come too close to guests and try to keep professional distance when serving or talking to guests
